

RULES AND PROCEDURES OF THE JOINT CALL FOR ENTRIES ISSUED BY THE MATADERO MADRID'S CENTRE FOR ARTISTS IN RESIDENCE AND SCREEN PROJECTS (LOOP BARCELONA) TO AWARD A RESIDENCY TO A SPANISH OR FOREIGN CURATOR DURING 2024.

1.- PRESENTATION:

Madrid City Council directly manages the Matadero Madrid cultural centre through the municipal corporate entity Madrid Destino, Cultura, Turismo y Negocio S.A. (hereinafter, "Madrid Destino") with Tax ID (CIF) number A-84073105, and registered office at Calle Conde Duque 9-11 (28015 Madrid).

Matadero Madrid, as a centre for contemporary creation, promotes a programme of residencies to provide support for creators in a broad sense, both indicative and unlimited in terms of those to whom it is addressed: artists, researchers, thinkers, cultural agents, transdisciplinary artists, etc. This programme is carried out through the Centre for Artists in Residence whose purpose is to support creative processes and provide residents with accompaniment, both in terms of curatorship and production, providing spaces, facilitating production, research and shared learning with other residents and agents.

The purpose of Screen Projects S.L. is to foster, promote and disseminate the visual arts in all their manifestations and forms. The projects it manages includes a platform dedicated to the study and promotion of the moving image, LOOP. Since its creation in 2003, it has offered carefully selected video-related content to a specialised public. It also works in close association with an international community of artists, curators, gallery owners, collectors and institutional directors to develop projects that set out to explore the potential of video and film in today's contemporary art discourses. Held annually, LOOP Barcelona is a special gathering that unfolds in three main sections: a city festival, a fair and a discussion forum.

Within this broad working framework, Madrid Destino, through the Centre for Artists in Residence, and LOOP, through an agreement with Fabra i Coats: Fábrica de Creación y Centre d'Arts Santa Mònica, are promoting this call for entries whose specific objectives are as follows: to provide a curator from any country of origin with a work space, funding, institutional support and international visibility. The residency is split into two periods; an initial stage during the month of May 2024 in Barcelona accompanied and managed by LOOP in collaboration with Fabra i Coats: Fábrica de Creación y Centre d'Arts Santa Mònica, and a second stage during the month of June 2024 in Madrid, managed by the Matadero Madrid Centre for Artists in Residence. As a result of the residency, the curator will schedule two sessions during the first quarter of 2025, exact dates to be confirmed, as part of the *Video Tuesdays (Martes de video)* programme at the Centre d'Arts Santa Mònica. **Video Tuesdays** is a meeting place for the general public, creators, students and indeed anyone interested in enjoying a programme of

small-format, artistic, experimental and innovative audio visual works in the relaxed and welcoming atmosphere.

2.- OBJECTIVE:

In accordance with the principles of transparency, equality and competition, and in consonance with the programming lines of Matadero Madrid, the ultimate aim of this call for entries is to support the presence and research of an art curator and their participation in the *Video Tuesdays* programme at the Centre d'Arts Santa Mònica during the first quarter of 2025.

Thus, the aim of this initiative is to:

- a) Promote the professional careers of art curators.
- b) Provide curators interested in the local context with institutional support and spatial and financial resources to facilitate their research.
- c) To establish a context of accompaniment and training to ensure that the purpose of the residency sees the light of day in the best possible conditions.
- d) To establish connections between the different protagonists of the city's art scene, the institution and the general public.
- e) To facilitate the visibilisation and internationalisation of the work of the selected curator by means of the presentation of the research that they have carried out during their residency, consisting of their collaboration in the *Video Tuesdays* programme at the Centre d'Arts Santa Mònica during the first quarter of 2025, and in the public activities organised to this end both in the Matadero Madrid Centre for Artists in Residence and within the framework of LOOP.

3.- APPLICANTS/PARTICIPANTS:

This call is aimed at curators from any country. Applicants must be actively working as curators. Given that the purpose of the residency is to get to know the artistic contexts of Madrid and Barcelona, applications from curators who live in either city will not be accepted.

Only natural persons of legal age, with the capacity to act and who are not subject to any of the prohibitions to contract set forth in article 71 of the Public Sector Contracts Act may apply.

Several individuals may apply for this Call for Entries on their own or in a group, without the need for there to be any legal relationship between them.

In the case of a number of natural persons submitting a joint application, they must designate a representative to whom the rest of the members of the group must assign their rights of representation. All obligatory dealings will be conducted with this representative, without

prejudice to the internal relations between them in terms of compliance with the undertakings arising from this call for tender. In any case, the members of the group shall be jointly and severally liable.

As the curator will be living with other local and international artists and cultural agents and with other agents and projects collaborating with the Matadero Madrid Centre for Artists in Residence, they will have to be permeable to this open space of hospitality, coexistence and personal and professional exchange and care. Please note that communication will not only be in Spanish, but also in English.

Any project that is submitted must be the work of the curator or curators applying for this call.

Only one project will be selected.
